

# Pediatric Demographics Profile

**IHE Educational Workshop 2008**

**IHE IT Infrastructure**

**Alean Kirnak**

**Software Partners LLC**

**Public Health Data Standards Consortium**

# Value Proposition

- Supplement to PIX, PDQ, PIXV3 and PDQV3
- Facilitates large pediatric databases with data of mixed quality, i.e. for public health
- Helps create true positive matches
- Helps avoid false positive matches of multiples (twins, triplets, etc.)

# Use Cases

DOB	Last	First	Mid	Gender	Address
1/3/2003	Smith	Lalainne		F	515 ASTER ST
1/3/2003	Smith	Lailannie		F	515 ASTER ST

# Document Walk-Through

- **Six Pediatric Demographics fields**
- **Use of Last Update Date/Facility**
- **Query vs. Matching fields**
- **Optionality**
- **Addition of Patient Identity Management [ITI-30]**

# ITI-30 vs ITI-8

ITI-8	ITI-30	
A01		admit/visit notification
A04		register a patient
A05		pre-admit a patient
A08		update patient information
		merge patient information
	A24	link patient information
	A28	add person information
	A31	update person information
	A37	Unlink person information
A40	A40	Merge person information
	A47	change patient identifier list

# Conclusion

- **Supports public health**
- **Supports immunization registries**
- **Supports pediatric applications**
- **Adds a V2.5 option for PIX**
